### An international event promoting partnerships from drug discovery research to formulation manufacturing.

In the 2025 event, 794 companies from 73 countries exhibited, attracting over 30,000 professionals from the pharmaceutical industry. The event provided a platform for exchanging the latest technological information and holding numerous business discussions. As a one-stop pharmaceutical development exhibition covering everything from drug discovery to manufacturing, CPHI Japan not only supports new drug development and stable supply but also aims to drive further growth of the pharmaceutical industry through this platform. The exhibition serves as an ideal meeting place for discovering the best partners to address challenges such as the development of innovative drugs and ensuring stable supply, helping to promote the sustainable development of the industry.

The exhibition scale has reached a record high, and the excitement level has increased as well.
